

STRONG PROTECTION TODAY AND TOMORROW

Relatively higher
tensile strength

Hardness and
ductility which
provide better
fatigue properties

Tata Wiron IHT wires are primarily used for mono-suspension springs in 2 and 3 wheelers. Now accepted in 4-wheeler suspension springs as well.

Tata Wiron Induction hardened and tempered (IHT) spring steel wires are high strength wires supplied in hardened and tempered condition, with a fine tempered-martensitic structure.
