

FOR A SMOOTH AND CONSISTENT TOMORROW

Better Grip: Whitish grey residual lubricant coating on wire for better grip

Easy Coiling: Smooth surface without chatter marks

Good Compatibility with CNCs: Stringent control over wire cast and helix makes the Tata Wiron Spring Steel wire compatible with high speed CNC spring coiling machines and produce consistent spring-to-spring dimensions

No variation: Minimum variation in physical properties minimizes spring to spring profile variations

Superior Quality: Superior wire cooling, optimum process and input wire rods taken to have consistent quality

Extra length: More length per unit weight in Tata Wiron Spring Steel Wire
